# The Telephone a Convenience in Emergencies

**M**Y LADY is dressed for calling or for an afternoon or evening party, and a shower makes a conveyance necessary. If there is no telephone in the house, how may a carriage be obtained?

The ability to use the telephone when such a real emergency arises is worth the cost of the service many times over.

The Bell System reaches every metropolitan center in the country. It renders efficient telephone service through fair and foul weather, day and night, anywhere.

New York Telephone Company

# General Information

---

Subscribers are requested to report any irregularity of the service to the "Central Office Manager," using another telephone if necessary.

## Payment and Adjustment of Accounts

Bills for Telephone Service are payable at the Local Agent's Office. See name and address on outside front cover.

All communications relative to the payment or adjustment of accounts, contracts for additional service, or changes in service, removals, etc., should be addressed to the Local Agent's Office.

## Free Calls

Calls from any Telephone in the Long Island Division of the New York Telephone Co. to any Department of the Company in that Division, or to the General Offices in New York City, may be made without charge.

## Telephone Directory Advertising

Advertising space in the telephone directories published by the New York Telephone Company is for sale. Complete information regarding advertising rates, etc., may be obtained by calling Local Agent's Office, or Advertising Department, New York City. No charge for such calls.

## Attachments to Telephones

In the interest of good service subscribers are requested to make no attachment of any kind to the instruments supplied by the Company. Telephone Instruments have been designed to produce the best results, as they are, and are necessarily very sensitive and intricate.

The various unauthorized devices offered for sale, and which are supposed to improve transmission, eliminate noise, destroy germs, supplant the telephone directory, etc., are unnecessary. Many of them get the telephone lines and instruments into trouble and the Company, to protect its service, is compelled to remove them.

Subscribers' contracts provide that no instrument or appliance not furnished by the Company shall be attached to or used in connection with its instruments or lines.

## Identification of Employees

Employees who are authorized to install, examine, exchange or remove any of the Telephone Company's apparatus are furnished with a metal badge bearing the Company's name and a number. Subscribers are requested to refuse access to their premises to applicants unable to furnish proper identification.

---

## SPECIAL NOTICE

The Company assumes no liability for damages arising from errors or omissions in the making up and printing of this Directory; nor can it guarantee the permanency of call numbers assigned or to be assigned. Subscribers are, therefore, advised not to print telephone numbers on stationery, etc., but to use the phrase, "Telephone Connection."

# General Information

---

Subscribers are requested to report any irregularity of the service to the "Central Office Manager," using another telephone if necessary.

## Payment and Adjustment of Accounts

Bills for Telephone Service are payable at the Local Agent's Office. See name and address on outside front cover.

All communications relative to the payment or adjustment of accounts, contracts for additional service, or changes in service, removals, etc., should be addressed to the Local Agent's Office.

## Free Calls

Calls from any telephone in the Long Island Division of the New York Telephone Company, to any department of the Company in the Long Island, New Jersey, Metropolitan or Westchester Divisions, may be made without charge.

## Telephone Directory Advertising

Advertising space in the telephone directories published by the New York Telephone Company is for sale. Complete information regarding advertising rates, etc., may be obtained by calling Local Agent's Office, or Directory Advertising Department, New York City. No charge for such calls.

## Attachments to Telephones

In the interest of good service subscribers are requested to make no attachment of any kind to the instruments supplied by the Company. Telephone Instruments have been designed to produce the best results, as they are, and are necessarily very sensitive and intricate.

The various unauthorized devices offered for sale, and which are supposed to improve transmission, eliminate noise, destroy germs, supplant the telephone directory, etc., are unnecessary. Many of them get the telephone lines and instruments into trouble and the Company, to protect its service, is compelled to remove them.

Subscribers' contracts provide that no instrument or appliance not furnished by the Company shall be attached to or used in connection with its instruments or lines.

## Identification of Employees

Employees who are authorized to install, examine, exchange or remove any of the Telephone Company's apparatus are furnished with a metal badge bearing the Company's name and a number. Subscribers are requested to refuse access to their premises to applicants unable to furnish proper identification.

## SPECIAL NOTICE

The Company assumes no liability for damages arising from errors or omissions in the making up and printing of this Directory; nor can it guarantee the permanency of call numbers assigned or to be assigned. Subscribers are, therefore, advised not to print telephone numbers on stationery, etc., but to use the phrase, "Telephone Connection."
